Remarks.
Boy Harry Ashton started out from the side of the Street (South Ave.) directly in front of parked Automobile facing east in direction I was driving. I was running slowly preparatory to stopping a little way beyond the boy apparently wasn't looking where he was going, running fast. I swerved and he dived into the side of my car about opposite the drivers seat. I stopped immediately. Witnesses picked him up and drove him to hospital. I waited for Officer.

Remarks
Driver of car B — claims that he did not see car A — until he was a very short distance from car A, due to a third car, which was coming toward him, and was blinded by its Headlights Car A had come to a stop at a stop St, and started again, and had proceeded to make a left hand turn and had reached a distance of 36 feet past the corner when accident occured. Driver of car B claims that due to the wet street his brakes locked and his wheels skidded, which made it impossible for him to stop.

Remarks

Was about to make turn from George St. into Sammon Ave. two boys about sidewalk blew horn when suddenly one of lads started to dart across. Swerved to right to avoid him and hit tree. Believe something wrong with steering wheel because it wouldn't turn after swerving before hitting tree. No School patrol at corner at the time. asked patrol boy after accident for identity of boys who caused accident pointed out one boy but unable to get his name because of intense suffering. Request that they be questioned as they should be warned or they will be hurt if they repeat stunt. Had to take choice of hitting kid or swerving to curb.

Remarks:

I was proceeding in a westerly direction on West Front Street west of Melrose Place, and applying my brakes slowly on account of bad conditions of street because I wanted to stop for a delivery. I had just pulled to the curb and stopped when my truck was struck from the rear by Mr. Pureboons car. I think the cause was the wet pavement making his brakes useless.
